

Percentages: Change & Financial Maths

Answer key · 21 marks total

Section A — Percentage increase & decrease

A1. 2.80×1.15 (1) = **£3.22** (1)

A2. 64×0.70 (1) = **£44.80** (1)

A3. 540×1.04 (1) = **£561.60** (1)

A4. 9000×0.82 (1) = **£7,380** (1)

Section B — Reverse percentages

B1. $270 \div 1.08$ (1) = **£250** (1)

B2. $45 \div 0.75$ (1) = **£60** (1)

Section C — Simple & compound interest

C1. $I = 250 \times 6 \times 4 \div 100$ (1) = $6000 \div 100$ (1) = **£60** (1)

C2. Amount = 350×1.05^2 (1) = 350×1.1025 (1) = **£385.88** (1)

Section D — Spot the operation

D1. (a) Increase multiplier (1) (b) Reverse percentage (1) (c) Decrease multiplier (1)

Marking note: award method marks for a correct multiplier or correctly substituted formula even if the final answer contains an arithmetic error. In Section D, no calculation is required — award the mark for correctly identifying the operation only.
